

## Basic Instructions

Certification candidates must submit both the Test Application Package and the Experience Application Package. The Test Application Package applies to any NICET computer-based testing program. The Experience Application Package is a separate package for the specific certification that you are pursuing. See the booklet “Applying for NICET Certification” (at [www.nicet.org](http://www.nicet.org)) for more details. The contents of both packages are described below:

# Test

Section I: Candidate Information

Section II: Test Selection and Payment

# Experience

There is a unique Experience Package for each certification program. This Experience Package contains the materials for applying for certification as a **Video Security Systems Technician**.

## Candidate Information and Payment Form

- If you are applying only for an Experience Evaluation at this time, then please complete only Parts B and C on the payment form.

## Part I: Work History

- A position is a job title at a company. You may have held different positions at the same company. Be sure to include each Position you have held.

## Part II: Verifier Data

- A responsible third-party must complete this information form and then verify your on-the-job performance (Part III).

## Part III: Performance Verification

- View the certification criteria on the next page to find out which performance measures must be verified for the Level of certification that you are pursuing.

## Part IV: Personal Recommendation (required at Levels III and IV)

- To be completed by a responsible government official, Professional Engineer, or customer representative who has not been your Verifier.

## Part V: Major Project Write-Up (required at Level IV)

- Write up a project for which you have held substantial responsibility.

Mail your application with payment to:

NICET  
c/o Bank of America  
PO Box 418651  
Boston, MA 02241-8651

If you're submitting a form that supplements a previously-paid experience evaluation, then send to:

NICET Evaluation, 1420 King Street, Alexandria, VA 22314

**REMEMBER!**

- **Ensure that you are submitting the correct application materials and fee payment. Access the current certification criteria and fee information at [www.nicet.org](http://www.nicet.org).**
- **Make a copy of the entire application and keep it with your testing/certification records.**
- **Include name and identification number on every page of every part of the application.**

## Conditions of Application for Technicians

1. **NICET has established policies, procedures, and fees** that govern certification decisions, the uses of certification, and interactions with applicants and certificants. These policies, procedures, and fees may be changed by NICET at any time without prior notification. These policies, procedures, and fees are freely available on NICET's website ([www.nicet.org](http://www.nicet.org)). Each person who signs any NICET application accepts and agrees to follow these policies and procedures in all dealings with NICET.
2. **Each NICET certification may have multiple criteria** that must be met by a candidate in order for the certification to be conferred. These criteria may be changed by NICET at any time without prior notification. Current criteria, along with general information about NICET and its certification programs, are available from NICET's website ([www.nicet.org](http://www.nicet.org)). Individuals who are not resident in, or working in, the United States or its territories may not be eligible for certification. These individuals must contact NICET before applying and may be required to follow additional procedures, with additional fees, to demonstrate that they meet the criteria.
3. All applicants, candidates, and certificants **must comply with the NICET Code of Ethics** (see previous page) and follow generally accepted ethical practices at all times. For example, acquiring and/or providing specific knowledge of test questions prior to testing, or acquiring or providing assistance during an examination; intentionally providing information to NICET that is incomplete, or inaccurate; or knowingly providing technical services in an unsafe, inaccurate, or unprofessional manner may subject the offender to any number of sanctions, including legal prosecution.
4. NICET reserves the right to **deny, suspend, or revoke any certification** (pending or awarded) should the Institute determine that an applicant, candidate, or certificant has misrepresented information, violated a NICET policy or procedure, or violated the NICET Code of Ethics.
5. Maintenance of **current accurate contact information** is the responsibility of the applicant. NICET requires accurate contact information to communicate to the applicant important information related to testing, certification, and recertification.
6. **The NICET name, logo, and certification mark are the property of NICET and may not be used without the expressed written permission of the Institute.**
7. **NICET approval letters, wallet cards, and certificates** are issued to certificants for their use but remain NICET property at all times and may be recalled by the Institute at any time without prior notification.
8. **NICET test questions and examinations** are the copyrighted property of NICET. Any copying, sharing, or distribution of the content of those test questions and/or examinations constitutes copyright infringement and is a violation of U. S. federal law. Violators will be subject to suspension or revocation of NICET status and/or prosecution to the full extent of the law.
9. Each person who signs a NICET application grants NICET the **right to contact individuals** named in application materials or other communications with NICET to confirm the accuracy of information provided by the applicant.
10. **NICET certification must be used, represented, and displayed** in accordance with NICET policies. NICET certification does not constitute a license to practice engineering.
11. Each person who signs a NICET application grants NICET the **right to publish their name, address, and certification** information in its certification directories and to provide that information to others in response to bonafide inquiries. Test scores will be given to the test-taker only, unless the test-taker submits a release form authorizing NICET to give the scores to another specified individual.
12. The applicant's **Social Security number or government-issued ID number** is required for identification purposes. It will be used for NICET internal use ONLY and will not be given to anyone else without legitimate legal reason.
13. **An applicant's test records will be purged** for an individual certification area after five years if no further testing is completed in that certification area and the individual is not certified in that area. If the applicant has active certifications or is actively testing in other certification areas, the records for those other certification areas will not be affected.
14. **An applicant with a disability** as defined in Title III of the Americans with Disabilities Act who may be placed at a disadvantage when taking a NICET certification examination must advise NICET, in writing, of their needs by including a letter or other appropriate documentation with their application. NICET will respond by telephone or other means to make appropriate accommodations.
15. **All certifications expire** three years after an individual's initial certification is awarded and every third year thereafter. Re-certification will be based on the certificant's activities during that three-year period. Requirements and fees may be found in NICET's Continuing Professional Development Policy (See [www.nicet.org](http://www.nicet.org)). Several months before expiration, a recertification application will be sent to the last postal or email address provided by the certificant. If the application with payment is not received by NICET prior to the expiration date, the certificate will expire. Reinstatement to Active Status will involve an additional fee. If reinstatement has not occurred three years after the expiration date, all certifications and all testing records will be purged. Payment of new testing and/or application fees does not substitute for payment of the full recertification fee when due. Additionally, obtaining a higher-level NICET certification does not alter or "reset" the originally established three-year certification period.

### NICET Code of Ethics

NICET-certified engineering technicians and technologists recognize that the services they render have a significant impact on the quality of life for everyone. As they perform their duties and responsibilities on behalf of the public, employers, and clients, they shall demonstrate personal integrity and competence. Accordingly, certificants shall:

1. Have due regard for the physical environment and for public safety, health, and well being. If their judgment is overruled under circumstances where the safety, health, property, or welfare of the public may be endangered, they shall notify their employer, client, and such other authority as may be appropriate. An employee shall initially express those concerns to the employer.
2. Undertake only those assignments for which they are competent by way of their education, training, and experience.
3. Perform their duties in an efficient and competent manner with fidelity and honesty.
4. Admit and accept their own errors when proven wrong and never distort nor alter the facts in an attempt to justify their decisions.
5. Avoid conflicts of interest whenever possible. When unavoidable, they shall disclose to their employer or client, in writing, any action that might create the appearance of a conflict of interest.
6. Avoid receiving and granting bribery in all its forms.
7. Strive to maintain their proficiency by updating their technical knowledge and skills in engineering technology.
8. Not misrepresent or permit misrepresentation of their own or their associate's academic or professional qualifications nor exaggerate their degree of responsibility for any work.
9. Not reveal facts, data, or information obtained in connection with services rendered without prior consent of the client or employer except as authorized by law.

	2701-3005	The candidate has repeatedly demonstrated an ability to effectively train end users in the operation and basic maintenance of the system.			
	2701-3006	The candidate has repeatedly demonstrated an ability to give complete and accurate reports on his or her activity, progress, and problems encountered.			
	2701-3007	The candidate has consistently and reliably demonstrated ethical behavior on the job, consistent with the NICET Code of Ethics.			
Specific	2701-4001	The candidate has installed at least 30 video cameras in conformance with manufacturers' specifications, applicable standards, and project plans.			
	2701-4002	The candidate has installed at least 10 video monitors in conformance with manufacturers' specifications, applicable standards, and project plans.			
	2701-4003	The candidate has installed at least 10 video recording devices in conformance with manufacturers' specifications, applicable standards, and project plans.			
	2701-4004	The candidate has completed at least 3 projects or sections of projects which met project specifications and which involved a complete basic system or subsystem including at least 2 cameras, 1 VCR or DVR, 1 monitor, and complete power and signal cabling. The candidate personally installed, powered-up, and tested the components. At least one project was completed within the 6 months prior to today's date.			

**Statement of Verification:** I verify that I have a detailed personal knowledge of the candidate's performance related to each of the performance measures that I have initialed above and that, in my best professional judgment and according to government and industry standards and best practices, each initialed statement is true and has been repeatedly and consistently demonstrated.

<b>Level III Performance Measures</b> (verification required for certification at Levels III and IV)			<b>Verifier's Initials</b> Has the candidate demonstrated proper performance of the task?		
			Yes	No	Can't determine
General	2701-5001	The candidate has repeatedly demonstrated an ability to program digital video recorders to obtain specified frame rates, resolutions, and triggers.			
	2701-5002	The candidate has repeatedly demonstrated an ability to establish & verify copper, optical, & RF video and data paths.			
	2701-5003	The candidate has repeatedly demonstrated an ability to create a specified alarm condition and response.			
Specific	2701-6001	The candidate has installed and set up at least 5 PTZ units to function in conformance with manufacturers' specifications, applicable standards, and project plans.			
	2701-6002	The candidate has installed and set-up at least 8 DVRs to function in conformance with manufacturers' specifications, applicable standards, and project plans.			
	2701-6003	The candidate has properly installed at least 10 cable runs (power, video, and data) of over 800 feet, maintaining proper signal strength.			
	2701-6004	The candidate has, at least twice, set up the interface between a video security system and a peripheral system, involving at least two different types of peripheral systems (intercom, access control, burglar or fire alarms, or building environmental controls), to provide specified alarm conditions and response.			
	2701-6005	Projects: The candidate has completed a total of at least 5 video security system projects or sections of projects that meet the following criteria: <ul style="list-style-type: none"> <li>• At least 3 of the projects meet or exceed the criteria for a Type B system as defined at the bottom of this page;</li> <li>• The projects' components were personally powered-up and tested by the candidate;</li> <li>• The projects' components were personally installed by, or installed under the direct supervision of, the candidate;</li> <li>• At least one Type B project was completed within the 12 months prior to today's date.</li> </ul> <i>Note: This may or may not include projects verified elsewhere.</i>			

**Statement of Verification**

I verify that I have a detailed personal knowledge of the candidate's performance related to each of the performance measures that I have initialed above and that, in my best professional judgment and according to government and industry standards and best practices, each initialed statement is true and has been repeatedly and consistently demonstrated.

**Type B System:**

A complete system or subsystem with complete power and signal cabling AND:  
 at least three of the following:

- o 1 or more PT/Z cameras
- o 2 or more keyboards
- o Matrix interfaced with alarms, A/C, or intercom (GPI or dry contact)
- o Digital video recorders with programmable, alarm-based resolution and frame rate

AND at least two of the following:

- o Optical fiber transmission
- o Long cable runs (over 800 feet)
- o 1 or more low light cameras
- o 1 or more covert or portable cameras
- o RF modulators

Candidate's personal involvement:  
 Type B **Installation/Upgrade/Expansion** project: all work is personally performed by the candidate, with the possible exception of assistance received in cabling and mounting of devices.  
 Type B **Service** project: over some time period, involves testing and repair and/or replacement of all of the system elements.

## NICET ENGINEERING TECHNICIAN CERTIFICATION Experience Application, Part IV: Personal Recommendation

### Section 3 – Recommender’s Evaluation of the Candidate

**Role of the Engineering Technician:**

**Apply well-defined and proven procedures, methods, and practices, derived from established or real-time engineering guidance, to specific technical assignments, and do so in an ethical and responsible manner.**

Regarding the role described in the box above:

I do not recommend this candidate for this role.

I recommend this candidate for this role because he/she has (check all that apply):

made substantial progress toward independent capability in this role.

fulfilled this role, demonstrating good, Independent technical judgment and self-management.

fulfilled this role, demonstrating a capability to resolve complex technical issues and lead a team of technicians.

*Please indicate by placing a mark in the one most appropriate box to the right of each statement, whether, and to what degree, the candidate demonstrates each of the following attributes.*

	Never	Some-times	Mostly	Always	Don't know
The candidate consistently works hard to achieve the objectives of his/her job.					
The candidate is attentive to his/her own work and to the work of others that impacts his/her own responsibilities.					
The candidate shows initiative and equanimity in dealing with new jobs, changed circumstances, or problems, and accepts responsibility for outcomes.					
The candidate organizes and directs the activities of work teams to achieve their objectives in a timely and cost-effective manner.					
The candidate develops and maintains cordial and goal-oriented relationships with work team members and with clients.					
The candidate encourages, uses, and appreciates the ideas and initiative of others.					
The candidate communicates clearly and effectively with work team members and clients.					
The candidate's actions are ethical and his/her statements are truthful and do not conceal or hold back relevant information.					

*Additional comments or observations on the candidate's capabilities, responsibility, and achievements:*

**NICET ENGINEERING TECHNICIAN CERTIFICATION**  
**Experience Application, Part V: Major Project Write-up**  
Video Security Systems Technician, Level IV

*Each candidate for certification at Level IV in Video Security Systems Technician must submit a write-up (in narrative/essay format) of their role in a large and technically complex video security systems project demonstrating senior-level engineering technician capabilities and responsibilities.*

### **General Guidelines**

The Major Project Write-up must be a concise, detailed, 2 to 3 page written description of the candidate's role in one\* major video security system project.

The major project write-up must be type-written, identified by the candidate's name and NICET ID number, and on separate pages from other application documents. (The write-up is not a part of the work history in Part I of the application.)

The write-up must specifically identify the project and your role/title in it.

The candidate must be the sole author of the major project write-up. (Official job or project descriptions or testimonials from others will not be accepted.)

The project must be recent (within the last 4 years) and must have been completed.

Your involvement in the project must include a range of video security systems installation activities\*.

The candidate's involvement in the project must demonstrate independent, senior-level engineering technician work, including delegation of responsibilities and duties.

The write-up must reflect senior-level understanding of the nature and importance of the various aspects of the system and the project, and the roles of the various people involved in the completion and acceptance of the project.

### **Guidelines for Description of the Project**

The write-up should address each of the following in a detailed narrative:

- The location of the project, the type of facility, and the purpose or objective of the project (If client confidentiality requires it, you may use an artificial name/identifier for the facility.)
- Size of the project (number of buildings / stories / outdoor areas; number of cameras; cable runs; data recording rate; installation time; etc.)
- Time period (start/stop dates, dates of candidate's involvement, amount of time candidate spent on project)
- Scope of video security system project (circuits; interconnections; power; communications pathways; unusual lighting or other conditions; analytic applications; security considerations; etc.)

### **Guidelines for Description of the Candidate's Role**

The write-up should address each of the following in a detailed narrative:

- Supervisory or oversight responsibilities (number of people, the tasks they performed, and your relationship to them)
- Range/scope of activities and role in each activity (installation planning and site evaluation; permits / approvals; programming; data communications and networking; documentation; system installation; and acceptance; etc.)

*\*Note: If all of these activities cannot be documented for a single project, they may be accumulated via several more narrowly focused projects.*
