

## Reference Material Allowed in NICET Paper and Pencil Test Centers

888-476-4238  
www.nicet.org

**Effective January 1, 2011, the format of references an examinee may bring into a paper-pencil exam is limited to bound references.** Examinees may choose any references from the [NICET approved list](#)-including general references and personal notes. NICET highly recommends that all references are professionally bound. If references are not professional bound (i.e. typed/photocopied personal notes, loose publications, etc.), they must be included in a binder no larger than three (3) inches and with clear delineation of the publication(s) included in the binder. A binder may contain more than one delineated section. All personal notes must be typed or photocopied. Hand-written notes that **are not** photocopied will **not** be allowed into the testing facility.

If your reference material does not appear on the approved reference list, and you would like it to be considered for addition to the approved reference list, please submit an [e-mail to NICET](#) with the following information:

- The name, volume, and publisher information of the reference material;
- A link where information about the reference can be found OR an actual copy of the reference (the reference will be returned via FedEx); and
- The date of your scheduled exam.
