**Experience Application - Part I: Work History**

**Section 1 – Position Identification**

Employer:	Location of employer (city, state):	Name of supervisor (s):
Candidate's Position:	Dates position / responsibilities held:	Full-time <input type="checkbox"/> Part-time <input type="checkbox"/> Seasonal <input type="checkbox"/>
President / owner / co-owner	From: Month _____ Year _____ To: Month _____ Year _____	If part-time, hours per week: _____ If full-time seasonal, months worked per season ____

**Section 2 – Time Allocation**

Subfield / Technical Area (S/TA)	Description	Time devoted to S/TA (%)
<b>Fire Alarm Systems (FA)</b>	Fire alarm systems specific activities including project management, system layout (plan preparation), equipment selection, installation, troubleshooting, servicing, and technical sales.	%
<b>Fire Alarm Systems Inspection / Testing (ITF)</b>	Fire alarm systems work limited to performing, planning, and coordinating the inspection and testing of fire alarm systems.	%
<b>Special Hazards Systems (SH)</b>	Special hazards suppression systems specific activities including project management, system layout (plan preparation), equipment selection, installation, acceptance testing, troubleshooting, servicing, and sales.	%
<b>Water-based Fire Protection Systems Layout (SP)</b>	Water-based fire protection systems layout specific activities including project management, system layout (plan preparation), hydraulic calculations, site evaluation, equipment selection, plan approval, and sales.	%
<b>Water-based Fire Protection Systems Inspection / Testing (ITS)</b>	Specifically performing and managing the inspecting and testing of <b>existing</b> systems according to NFPA 25. Does not include work performed during installation and final testing / commissioning of new systems.	%
<b>Water-based Fire Protection Systems Fitting / Fabrication (SF)</b>	The performance and supervision of fitting, fabrication, maintenance, tests and inspections performed during installation and final testing / commissioning of new water-based fire protection systems or additions to systems.	%
<b>Other Fire Protection Work (OFP)</b>	This includes work with portable extinguishers, standpipe hoses and nozzles, municipal and private fire hydrants, fire-stopping, and firefighter duties.	%
<b>Video Security System Technician (VST)</b>	Video security systems specific activities including management, installation, preventative and corrective maintenance, tests and inspections, troubleshooting, and servicing.	%
<b>Video Security System Designer (VSD)</b>	Video security systems design and plan preparation specific activities including management, plan preparation, site evaluation, equipment selection, plan approval, and technical sales.	%
<b>Industrial Instrumentation (I/I)</b>	Industrial instrumentation work including management, design assistance, installation and maintenance of industrial measurement and control systems.	%
<b>Audio Systems (AS)</b>	Audio system specific activities including the layout, installation, and maintenance of audio systems for commercial, industrial, and large space applications.	%
<b>Electrical Power Testing (EPT)</b>	Specifically testing electrical power equipment, cabling, and systems operating in the range of 600 V and above. <b>Does not</b> include general wireman duties.	%
<b>Other Low / Limited Voltage Systems (LV)</b>	Work with non-fire alarm low/ limited voltage systems such as security, access control, nurse call, building control, computer networking, and emergency lighting.	%
<b>Other Electrical Systems (GE)</b>	General electrician work - residential and commercial wiring of loads including light machinery, lighting, HVAC components, and distribution panels and outlets.	%
<b>Other</b>	Specify: Gap:	%
<b>The sum of all the values in this column cannot exceed 100%.</b>		<b>100%</b>

**AFFIDAVIT:** I certify that the above is a true and complete breakout of the time I spent working in the subfields/technical areas indicated for the listed position. I understand that provision of misinformation is in violation of the NICET Code of Ethics and policy, and can result in the rejection of this application and/or the revocation of any certificate NICET has issued in my name.

**Sections 1, 2, and 3 must be filled out for each position held.**

**All information provided is subjected to cross-confirmation with documents on file and as needed through third-party entities including licensing bodies, previous and current employers, and other sources of official documentation.**

Candidate: \_\_\_\_\_ NICET ID No: \_\_\_\_\_

## Experience Application - Part I: Work History

### Section 3 – Detailed Description of Work Performed

**NICET cannot accept submissions provided on forms or in formats other than our own.**

Provide separate entries for each S/TA for which you made an entry in Section 2 using the designated abbreviations. If supplementary space is needed use additional pages of Section 3.

S/TA	*EXAMPLE*	Detailed Description of Technical Work Performed
SF		Supervised and performed the installation, corrective maintenance, under construction testing, and commissioning of new fire sprinkler systems and system additions. Systems installed included wet, dry, pre-action, deluge, and foam. Components installed and maintained included piping, pipe hangers, earthquake bracing, alarm check valves, various cutout valves, flow sensors, FD connections, standpipe hose connections, jockey and fire pumps, and backflow preventers. Installed systems of 25 – 600 heads in a variety of building types including residential and commercial high rise, mercantile, manufacturing, school, and military.
