Fire Alarm Systems

Level IV Selected General References

Candidates are permitted to bring only the following references into the test center:

<table>
<thead>
<tr>
<th>Title</th>
<th>Edition*</th>
</tr>
</thead>
<tbody>
<tr>
<td>NFPA 70E (Standard for Electrical Safety in the Workplace)</td>
<td>2015</td>
</tr>
<tr>
<td>NFPA 72</td>
<td>2016</td>
</tr>
<tr>
<td>IBC</td>
<td>2015</td>
</tr>
</tbody>
</table>

*The test questions are based on the standard editions listed above; therefore, candidates are strongly urged to bring these editions to the exam. Note: candidates may bring older or newer editions—in place of the editions listed above—at their own risk.

Note: An NFPA Handbook will NOT be accepted as a substitute for any of the titles listed above.

Note: References must be bound or secured in a three-ring binder with a title page. They may have highlighted text and self-adhesive index tabs or dividers, however they must be permanently attached. No other additions or modifications to the references are allowed. Handwritten notes are NOT permitted. References with loose paper or pages and freestanding tabs (e.g., repositionable sticky notes/tabs of any kind) are not permitted into the testing centers.

In addition to the references listed above, the following publications can provide some of the job knowledge required by a fire alarm systems technician. While these books may help you prepare for the exam, they are NOT permitted in the test center.

- OSHA 29 CFR 1910: Occupational Safety and Health Standards, Occupational Safety and Health Administration (OSHA).
- OSHA Resource for Development and Delivery of Training to Workers (3824-08) (2015). Occupational Safety and Health Administration (OSHA) and US Department of Labor.

- This listing is not intended to be complete or representative.
