

ADVANCING STANDARDS
TRANSFORMING MARKETS

Get Ready for Your NICET Certification

Train to the standard.
Build confidence.
Pass the exam.

ASTM's online NICET Level I Exam Preparation Programs are designed specifically to help you prepare with confidence and strengthen your understanding of the ASTM standards referenced in the NICET content outlines.

Delivered in a flexible, self-paced online format, each program features expert-validated instructional videos, step-by-step procedural demonstrations, interactive knowledge checks, and interactive content to reinforce key concepts and improve retention. Upon successful completion, learners earn certificates of completion and CEUs/PDHs, supporting both exam readiness and professional development.

Train Your Entire Team

- Ideal for organization-wide workforce development
- Benefit from standardized, consistent training across teams
- Perfect for onboarding new technicians
- Elevate technical competency across crews
- Build a culture of quality and compliance aligned with ASTM standards

As a NICET Recognized Training Provider, ASTM delivers standards-based training built to support your certification goals.
