Water-Based Systems Layout

Level I Selected General References

Candidates are permitted to bring only the following references into the test center:

<table>
<thead>
<tr>
<th>Title</th>
<th>Edition*</th>
</tr>
</thead>
<tbody>
<tr>
<td>NFPA 13</td>
<td>2016</td>
</tr>
<tr>
<td>NFPA 13D</td>
<td>2016</td>
</tr>
<tr>
<td>NFPA 13R</td>
<td>2016</td>
</tr>
<tr>
<td>NFPA 291</td>
<td>2016</td>
</tr>
</tbody>
</table>

*The test questions are based on the standard editions listed above; therefore, candidates are strongly urged to bring these editions to the exam. Note: candidates may bring older or newer editions—at their own risk.

Note: An NFPA Handbook will NOT be accepted as a substitute for any of the titles listed above.

Note: References must be bound or secured in a three-ring binder with a title page (example provided on the main program page). They may have highlighted text and self-adhesive index tabs or dividers, however they must be permanently attached. No other additions or modifications to the references are allowed. Handwritten notes are NOT permitted. References with loose paper or pages and freestanding tabs (e.g., repositionable sticky notes/tabs of any kind) are not permitted into the testing centers.

In addition to the references listed above, the following publications can provide some of the job knowledge required by a water-based systems layout technician. While these books may help you prepare for the exam, they are NOT permitted in the test center.

5. *Blueprint Reading for the Building Trades*, (1985), John E. Traister, Craftsman Book Company

12. OSHA 29 CFR 1910: Occupational Safety and Health Standards, Occupational Safety and Health Administration (OSHA)

13. OSHA 29 CFR 1926: Safety and Health Regulations for Construction, Occupational Safety and Health Administration (OSHA)

14. OSHA Construction eTool – Electrical Incidents: Ground-Fault Circuit Interrupters, Occupational Safety and Health Administration (OSHA)
